

8:40 Meeting, Friday, 27 July 1973

1. Upward Mobility Employee: On Wednesday we had a second missing upward mobility employee. Today we interviewed her, listened to her explanation and warned her about the consequences of future behavior.
2. Name Change: The title of the Professional Selection Branch has been officially changed to Professional Staffing Branch.
3. Co-op and Summer Intern Program: In addition to interviews in the CT Program, we have arranged for some of the interns who wish to return next summer to be interviewed by DDI offices different than the one they are in this summer.
4. Retirement Regulation: The CIARDS Reg. is in OGC STAT for consideration. They will move rapidly to complete their review.
5. Quick Response Items: We have spent considerable time, as no doubt others have, in coming up with statistical data and other information that may be used to support testimony provided the Committee by Mr. Colby -- separation rates, recruitment practices, details to other agencies and relationships with other agencies in the field of recruitment.
